

ONALA Guidelines for Reopening During Covid 19 Pandemic June, 2020

ONALA management and their Board of Directors have implemented these guidelines below for the safety of ONALA employees and the people we serve every day.

These guidelines are recommendations and requirements, handed down by the WHO, CDC, Pennsylvania Governor's office, and The ONALA Recovery Center research itself.

Expect delays upon entry to the ONALA.

Entrance to the ONALA will be limited to the front entrance.

Masks will be required upon entry to ONALA. No Exceptions! Temperatures will be taken upon entry. Anyone with a temperature of 100.4 will be denied access. Anyone who does not comply with these requirements will be denied entry. If you are feeling ill and are having Covid 19 like symptoms, please stay away and seek medical attention from your health care provider.

The CDC, PA Dept. of Health, and ONALA require to maintain 6ft distance from one another. They also recommend no hand shaking, fist bumps, hi fives, hugging and personal contact with another person. The WHO and CDC has suggested to bow or use jazz hands in place. This simple practice cuts down on the spread of Covid 19 and other viruses that cause ailment.

ONALA expects to be reopening Monday June 22, 2020. Though this could change to unexpected circumstances.

ONALA Reopening will occur in a 4 phased process.

Phase 1: Starting with daily operations in the morning and afternoon. **No kitchen service or evening hours.** This phase will give us an opportunity to hone our daily safety and sanitation skills. After management feels that our plans and guidelines are being met, we will move to the next phase. **Hours of Operations 9am to 3pm**

Phase 2: We will expand our operations to evening service. This phase will have a **break in daily operations. Hours of operation 9am – 4pm, 7pm – 11pm.** This will give us time to clean and sanitize for evening activities, also make a clean transfer from morning to evening staff and members. **No kitchen service.** After management feels that our plans and guidelines are being met, we will move to the next phase.

Phase 3: Daily operations will resume all day with no shut down period. We should be quite comfortable with our new requirements and guidelines by this time and can start getting prepared for the next phase. **No kitchen service. Hours of operation 9am – 11pm.** After management feels that our plans and guidelines are being met, we will move to the next phase.

Phase 4: We will resume regular daily service. **Kitchen Open.** We will still be bound by the CDC and Pennsylvania Governor's Office restrictions and recommendations in this phase.

Health and Strength
